

Before you rush to the ER, Call your Pediatric Office or 844-IHA-DOCS first!

You can call us 24 hours a day, 7 days a week!

PEDIATRIC OFFICE

For care and treatment of routine or immediate needs that are not life-threatening

For all medical concerns contact your Pediatrician first. Your Pediatrician is the most familiar with your medical history and provides routine or immediate care when it is not an emergency

- | | | |
|---------------------|------------------------------------|---------------------|
| Allergies | Animal or Insect Bite | Asthma |
| Back Pain | Cold & Flu Symptoms | Diabetes |
| Ear Pain | Gastrointestinal or Stomach issues | Headaches |
| High Blood Pressure | Immunizations or Shots | Pink Eye |
| Preventive Care | Rashes | Routine Well Visits |
| Sore Throat/ Cough | Urinary Tract Infection | Women's Health |

URGENT CARE

For immediate but not life-threatening needs, when your Primary Care provider is unavailable

Call your Pediatrician first if you believe you should go to an Urgent Care. Urgent care has evening and weekend hours when your primary care provider may not be available.

- | | | |
|-------------------------|-----------------------|-----------------------|
| Allergic Reaction | Animal or Insect Bite | Asthma Attack |
| Back Pain | Broken Bones | Cold and Flu Symptoms |
| Ear Pain | Minor Head Injuries | Pink Eye |
| Rashes | Sore Throat/ Cough | Sprains and Strains |
| Stitches | Moderate Stomach Pain | Tooth Pain |
| Urinary Tract Infection | | |

EMERGENCY ROOM

**For any life or death emergency or urgent after-hours needs
OPEN 24/7**

Call your Pediatrician first if you believe you should go to the Emergency Room. You should follow up with your primary care provider after a visit to an emergency room.

- | | | |
|----------------------------------|--|------------------------------------|
| Severe Asthma Attack | Difficulty Breathing | Severe Broken Bones |
| Severe Burns | Severe Chest Pain | Altered Consciousness or Confusion |
| Loss of Consciousness | Convulsions or Seizures | Dehydration |
| Drug Overdose or Poisoning | Fever in Newborn (under 2 months of age) | Fever and Stiff Neck |
| Severe Head, Neck or Back Injury | New Onset Seizure | Severe Stomach Pain |

When experiencing a life-threatening emergency, call 911.
